REISSUE

REFERENCES TO PROBATIONERS AMONG SEAMEN.

From: NEW YORK

To: MOSCOW

No.: 855

16 June 1944

To VIKTOR[1].

Reference number 2229[11]. Concerning RASPUTNIS instructions were given to EL'TSOV on 12th June. RASPUTNIS has already been sent to the motor-launch [KATER] and will leave for home at the end of June. The data about the probationers [2 groups unrecovered] received from MAKSIM[111] [C] have proved to be a repetition of what we passed on to EL'TSOV considerably earlier. In future you are requested to pass on information about probationers [STAZHERY] who are naval seamen through the 5th Line. Please wire data at any rate about the residents for the first DIVISION in crews 221 - 224 and for the second DIVISION on motor launches 225 to 236. As a consequence of the absence of an adequate quantity and quality of probationers a very strained situation with regard to the servicing of personnel has arisen at E.'s[iv] place.
